

Introduction to Log Building

Charles Bloom Secondary School is partnering with Arbor Vitae Log Craft to deliver an Introductory Log Builder Training program in Lumby, BC, from April 21 to May 2, 2008. Interested participants should apply early to ensure availability, as space is limited.

This Entry Level program will help educate students on various aspects of the log building trade. The Program Outline will help develop skills and knowledge in:

- primary log fitting techniques
- use and application of the industry's latest jigs and building systems
- scribing, notch cutting, lateral groove
- tool selection; chainsaw and sharp edge
- characteristics and dynamics of massive wood
- log selection procedures
- International Log Building Standards

This 10-day training session runs
Monday to Friday
April 21—May 2, 2008
Program Tuition: \$500. CDN
